We are fundraising for sparkle

helpu plant arbennig i ddisgleirio
helping special children shine

Sparkle ensures Gwent children and young people with disabilities and/or developmental difficulties, along with their families, are fully supported and able to participate in valued childhood experiences, with access to the same range of opportunities, life experiences, activities and community services as any other child and their family.

Life can be challenging for the children, young people, and families supported by Sparkle. That's why we're fundraising—to help provide the exceptional services, expert staff, and cutting-edge equipment needed to ensure the highest quality facilities and support for those who need it most.

Sparkle has to raise over

£800,000

every year to continue providing support to hundreds of children and families across Gwent. Together, we can help!
