Team Sparkle Virtual Challenge

Team Sparkle are taking on their very own New Year, New Me challenge.

Our team challenge is the **Length of the UK Virtual Challenge**, which is a 1083 mile (or 1,743km) road trip from Lands End to John O'Groats. The idea is that each team member will take part in a distance based exercise (individually) and as a team we will travel the length of the UK.

It is going to be challenging for some of us, and more of a breeze for others, as we all have different fitness levels, but it is a great team building activity and gives us all a reason to get up and get walking. As a team we will work together to get to our destination.

You can keep an eye on our progress through the Sparkle social media pages - wish us luck!

If you would like to sponsor our team you can do so through our Just Giving page (link below), or you can sign up to your very own Virtual Event through the **Conqueror Events** webpage (note there are other companies who can provide similar challenges).

What will you do?
